

## NHS West Hampshire Clinical Commissioning Group

### Public Questions at our Board meetings

The Board meets in public every other month at different venues around West Hampshire. NHS West Hampshire Clinical Commissioning Group (CCG) aims to be open and honest in all its work and members of the public are welcome to attend the meetings.

Each Board meeting normally commences with a presentation on a health issue, where members of the public are warmly welcomed and they are actively encouraged to contribute. You are also welcome to observe the formal Board meeting which follows the presentation but it is not possible to take part in the discussion.

To support NHS West Hampshire CCG's values and in response to requests from the public, the Board is pleased to invite question from members of the public and organisational representatives at its meetings.

In order to effectively manage the meetings, questions will be taken during the 15 minutes prior to the formal Board meeting, following the public presentation. In the event that the number of questions exceeds the time allotted, questions will be dealt with in the order that they are received. If there is insufficient time to respond at the meeting, then we will ensure that we will forward a written reply as soon as possible.

To enable the Board to research and fully answer as many questions as possible during this period, they should be framed succinctly and be submitted within 3 working days of meetings

By email to: [info@westhampshireccg.nhs.uk](mailto:info@westhampshireccg.nhs.uk)

By post to: Board Secretary, NHS West Hampshire Clinical Commissioning Group, Omega House, 112 Southampton Road, Eastleigh, Hampshire SO50 5PB.
